Craig Bolt	parishclerk@bleadonparishcouncil.co.uk Tel: 07453 358 318 (Tues, Wed & Thurs am) C/O Coronation Halls, Bleadon. BS24 0PG
Weekly Opportunities to Visit the Clerk	
Bleadon Café every Tuesday, 9am-12pm	
Monthly Opportunities to Raise Questions and Listen to Discussions	
Full council meetings every second Monday of the month at the Coronation Hall at 7pm. Residents have 3 minutes each to speak with the council.	
Extra-ordinary Meetings – ad hoc dependent on issues raised	
Can be called by residents or BPC. Dates will be displayed in advance on noticeboards and BPC website	
Residents Annual Parish Meeting 2026 (APM)	
26th April 2027, 7:00pm at Coronation Hall - A meeting held for residents to openly discuss any parish issues and concerns, likes and dislikes. (This is NOT a council meeting) Key issues raised can be fed into the council's AMPC in May.	
Bleadon Parish Council's Annual Meeting 2026 (AMPC)	
10th May 2027, 7pm Similar format to the monthly meetings.	

Parish Council Chairman's Address

BLEADON PARISH COUNCIL

Dear Parishioners,

As I write this it's still November but I've already been to my first Christmas fayre. This edition of the Parish news has details of a number of local festive events. I'm particularly looking forward to the Christmas market on Saturday 5th December and the Crib service at the church on Christmas Eve.

We've undertaken a number of projects this year and are keen to hear your views on what you would like us to do. Please do have a read of the Budget and CIL items and let us have your thoughts.

Wishing you all a Merry Christmas

Cllr Andy Scarisbrick (Chairman)

Merry Christmas and a Happy New Year!

Thank you for your all support this year, and especially to the Parish News distributors who volunteer their time to ensure these editions get to you.

Cllr Jo Gower-Crane (Editor)

Deadline for mid-March 2027 to end of June 2027 edition is **14 February 2027.**
Please contact: jogc@bleadonparishcouncil.co.uk
Views published are those of the contributor or editor and may not be those of the Parish Council.

This newsletter can be found in colour with links, on the BPC website at www.bleadonparishcouncil.co.uk/news-and-events/newsletters, with editions from Issue 1 onwards on Bleadon BOB at www.bleadon.org.uk/villagenews

Highways Update

We explained in the last edition of Parish News some of the areas we are working on with North Somerset Council in relation to highways issues and some of these have already come to fruition. At the time of writing, the drainage and resurfacing works to Purn Way are underway and some of the signage related works have been completed – the bent speed restriction pole at the junction of Bleadon Road and the A370 is no more!

We're still discussing the detail of the scheme of works along Bridge Road, through the village centre and out through Shiplate Road, which we set out in the previous Parish News edition and we're encouraging North Somerset Council to progress the first phase of those works early in the next financial year.

The other two major issues we have raised with North Somerset Council relate to the safety of the section of the A370 running through the Parish (and access and egress through Bleadon Road and Bridge Road) as well as excess speed at various locations in the Parish. We are still working with North Somerset Council on these issues, particularly in the light of a further fatality on the A370 (just past the Bleadon Road junction) a few weeks back and we have questioned the data sources North Somerset Council is using when coming to its decisions – whilst recognising that North Somerset Council has a number of competing demands.

As a consequence, of the constructive challenge we've previously offered, we've now been invited by North Somerset Council to be part of a group of ten Town and Parish Councils to help reshape how they engage with local Councils in relation to highways issues and prioritise schemes of work.

Steve Sugg (Vice-chairman and Highways lead)

THE BLEADON BELLES

THE WI CHOIR

Invite you to join us for a

CHRISTMAS SINGALONG

on Sunday 13th December

from 3 – 5pm

in Bleadon Coronation Hall

Proceeds from the Bumper Xmas Raffle to

Weston Hospice Care

Tickets - £6 - to include:

FESTIVE REFRESHMENTS

Available from

Bleadon Post Office

Bleadon Farm Shop

It's that time of year again and we're gearing up for Christmas. Our festive gifts, chocolates and savoury treats are on display and we're about to put up our Christmas decorations as I write! Don't for get to grab your raffle ticket for the festive hampers- to be drawn on Friday Nov 27th during our late opening 'til 8pm. There will be craft stalls, mince pies and mulled wine, carol singing, Peter dressed as an Elf (worth coming to see him in tights!), children's letters to Santa and lots more. Also, it's a chance to order your special festive pork pies, turkey and other meat from our butchers.

We've all experienced several bouts of road closures in the village this year, each one disruptive and – for us - potentially devasting as a small business. Please always remember we are open regardless, even if you have to park in a slightly different place, approach from another direction or even on foot. Thank you for your forbearance during the heatwave when we had to restrict hot meals due to extreme heat in our kitchen. Recently we've had a run of power cuts and associated irritations such as card readers and tills going down. All these glitches are sent to try us, and you are (mostly!) very patient with us, for which we are so grateful. As your community centre, we soldier on!

Recently, we've run several successful theme weeks or 'one off' days including Breast Cancer Awareness, Children in Need and the Royal British Legion poppy sales. Thank you to all our wonderfully generous customers who support these excellent causes. Our 'pet' charity is Cystic Fibrosis Research and we collect up to £60 annually in small change donations in the collecting pot, so those little bits of change really do add up.

Money raised from our festive draw goes towards funding food parcels which we put together on Christmas Eve. These are given, via the church community, to local families who need a little help at Christmas… really heart-warming.

Thank you for your continued custom and wishing you a joyous and peaceful festive season,

Charlotte & Alistair House

Bleadon WI

Hello readers!

A huge thank you to our members and everyone in the community who helped create this year's extended poppy display. It looks amazing! With the remembrance service just a couple of days away as I write, it makes a fitting tribute.

With Christmas fast approaching, let's look back at a busy and enjoyable year at our WI. We've welcomed speakers on life as a female skydiver, storytelling, and fashion's environmental impact, as well as enjoying craft meetings and wine tasting.

Our members have also been busy supporting good causes. We donated well over 100 bras to The Inner Wheel collection. Weston Hospice is our main charity this year raising £1,205 so far, with proceeds from our Christmas raffle and the Bleadon Belle carol performance still to be added to our fundraising total.

We continue to support the Healthy Living Centre's work with families through food bank and clothing donations. We're also providing Christmas gifts for children and families facing a crisis this year.

Our trips have taken us to Forde Abbey which down poured most of the day but still enjoyable. Then more recently, bauble blowing. Plans for next year are already under way, and trips are generally open to women in the village who aren't WI members.

Fancy joining us? Get in touch with one of us in the New Year — we'd love to hear from you!

From us to you –
Wishing you all a very Merry Christmas and a Happy New Year!

The Bleadon Belles, The WI Choir

It was an honour for the Choir to join in the moving remembrance service in Bleadon Church on 8th November. The choir sang a moving rendition of "They shall grow not old" with music composed by our own Kevin Joint.

This complimented the WI's contribution to remembrance in Bleadon with their beautiful poppy display in the heart of the village. The poppies were all created by villagers and WI members.

Christmas starts with the **WI Carol Service on Friday 4th December at 6.30 pm in Bleadon Church** to which all are welcome; then the choir will be singing carols at **Waitrose on Saturday 12th December.**

Don't miss the popular **Christmas Singalong with mince pies on Sunday 13th December from 3-5 pm.** Tickets will be available from Bleadon Post Office.

Keep an eye on Facebook (In and Around Bleadon and The Bleadon Belles), plus village noticeboards for more information.

Bleadon Youth Centre

It's almost a year since we gave our kitchen a complete make-over. The past eleven months have proved without a doubt that it was worth the effort and expense. With more space, new kitchen units, worktops, cooker and fridge we now have a creative space that can be enjoyed by all our users.

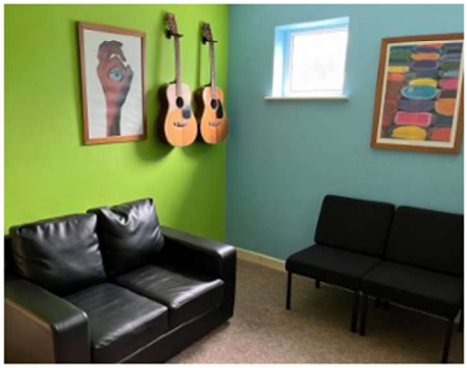

On a Thursday evening the youth club members can now get fully involved in food prep and cooking sessions. Enjoying the comradeship of working and learning together with the YMCA youth leaders. Then sharing the fruits of their labour around the oak-topped serving counter. Or relaxing on a sofa.

For all our other regular users the improvement has been a welcome bonus. Allowing more open social interaction between kitchen and main hall. It has become a real focal point for many.

Youth Club

The youth club run by the YMCA on Thursday evenings during term time continues to attract around 15-20 local youngsters each week. The young people can enjoy a full programme of organised activity or just chill and chat with friends. Weekly subs are just £2. The tuck shop is a regular favourite.

Pop in on a Thursday evening or scan to register interest in joining the fun at Bleadon Youth Club. You must be 10 years or older. Parent permission required.

Bleadon Youth Centre - so much more

We should really be calling our village asset the **Bleadon Youth & Community Centre**. Over the past twelve years we have seen the building develop and grow into a venue that caters for all sectors of our community. Moving away from being purely a home to Bleadon Youth Club (since 1968) to now hosting a broad range of activities throughout the week.

Admittedly, some of this is down to the need to bring in income to keep the building going. Last year it cost over £7,500 to keep the building open. Add in another £6,500 for the improvements we made to the building last year and you can see the challenge.

We have been forced into turning our charitable Trust into a commercial business and I think that we now have an asset that is all the better for it.

Keeping it young at heart

Whilst the Youth Centre's primary purpose is to provide for the young people of Bleadon and its neighbours, we welcome all kinds of activities that help maintain our youthful purpose.

Hopefully, our current range of regulars is testimony to that ethos:

A U3A music group, band practice for college kids, puppy and dog training, early learners toddler group, table tennis for seniors, a day centre for vulnerable adults, karate training and gradings, birthday parties and now home to the FREE Thursday morning outdoor easy fitness sessions.

If you have an activity or event in mind that would fit into our colourful venue get in touch. Call or message Keith on 07757 012 862 or email keith.pyke@btopenworld.com. Love to hear from you.

Outdoor Gym Equipment and Outdoor Exercise Classes

Hopefully, many of you will have had the opportunity to use the new outdoor gym equipment or take advantage of the free exercise classes which take place every Thursday morning at 9.30am. The funding for the exercise classes has come by way of North Somerset Council's 'Better Health' initiative, which is a joint programme between North Somerset Council and local Health Commissioners. It would be fair to say that the proposal we put forward has been well received and we were asked to speak at a recent conference as an example of best practice.

I know that many of you that have taken part in the exercise classes have really valued the approach taken by our trainer, Dani (from Elite Coaching). The initial grant funding for the exercise classes extended to 22 sessions and we are now more than halfway through the funded sessions. We are, therefore, working with Elite Coaching and other partners to see if there is scope for some form of continuation (albeit in a different format). In the meantime, the remainder of the 22 sessions will continue to run – using the youth hall rather than the outdoor exercise equipment if the weather is bad.

Andy Scarisbrick (Chairman)

Parish Pumps Restoration Works

The works to the Parish Pumps were completed as planned at the end of September and the pumps are now looking resplendent and will hopefully not require any further attention for a good many years.

The pumps are Grade 2 listed monuments and the works have been signed off by North Somerset Council's Conservation Team. The blasting element of the works was able to be completed within the first morning of the two days, so thankfully the most intrusive element of the works did not last overly long. However, we would like to express our thanks to the neighbours to the Parish Pumps for their patience and support.

Steve Sugg (Vice-chairman and lead for historic monuments)

Merry Christmas from Bleadon, Saint Peter and Saint Paul

'Remember the birth of Jesus, close the door of hate and open the door of love all over the world.'

MERRY
Christmas
JLBC'23

Wishing you a very happy Christmas and New Year

From Bleadon Parish Council

Bleadon Church 2026

We invite you to our Special Christmas Services

Our Crib service on Christmas Eve at 4:30pm:
A special yet informal service for young and old alike. We sing carols and build our Crib together.

Our Christmas Eve Communion at 8:00pm:
A unique moment of celebration in any year. All who seek to respond in love to the love of Jesus, "God with us", are welcome to receive the bread and wind of Communion.

Our Christmas Day Informal Worship at 10:15am:
A simple space to sing carols and reflect together on the wonder of Christmas.

All these services will take place in the church.
Find us at BS24 0PG

Public Consultations

All general and planning policy consultations can be found on the North Somerset Council's (NSC) website at https://n-somerset.inconsult.uk

North Somerset Local Plan 2041

NSC's Local Plan 2041 is now being examined in person by the Planning Inspectorate at NSC Town Hall. Details of the examination and the examination documents are available to view at https://www.hwa.uk.com/projects/north-somerset-local-plan-2041/.

The examination sessions started on Monday 9th November 2026 and will continue up to, and potentially including the reserve week, w/c Monday 18 January 2027. The Parish Council has submitted the following evidence in support of its position with regards to:

- Strategic Gaps
- Leighton Crescent Development Site
- Green Open Space
- DP53 (Best and Most Versatile Land)

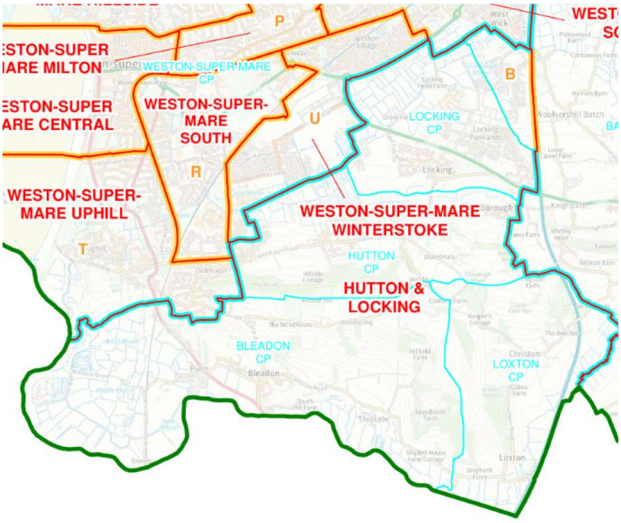

Craig Bolt and Cllr Jo Gower-Crane will continue to present the above views as the hearing progresses.

NSC have yet to publish any specific food production or food security policies, detailing land requirements that need to be protected for rural communities, farming and future generations. Following our presentations to the Inspector on 10-11th November I requested that our Ward Cllr Will Jones ask NSC full council to give a response to questions raised, but as yet unanswered, at the Local Plan Examination - What specific sector consultation has the Council undertaken with the rural farming communities? What are the quantified effects of the local plan on its rural economy, current & future farming, food production and food security? How was this communicated to the public and Councillors at North Somerset & Parish levels? Cllr Annemieike Waite is to respond, hopefully before our role at the examination continues on 8th December, in relation to Design and Place Making; Historic and Natural Environment Policies and Life Prospects and Countryside (including DP53 policies and EB45 - Best and Most Versatile Agricultural Land Background paper)

NSC World Café

On Monday 16 November I attended NSC's first Town and Parish World Café engagement session, at Flax Bourton Hub in Long Ashton. I had the opportunity to raise a number of issues with NSC representatives including Mandy Bishop NSC Chief Exec and its Head of Planning, who agreed to have follow-up meetings. World Café uses a series of small discussion tables, each facilitated by North Somerset Council officers. Participants move between tables during the session, creating opportunities for open dialogue, shared learning and the exchange of ideas in a relaxed and collaborative environment.

Electoral Boundary Review

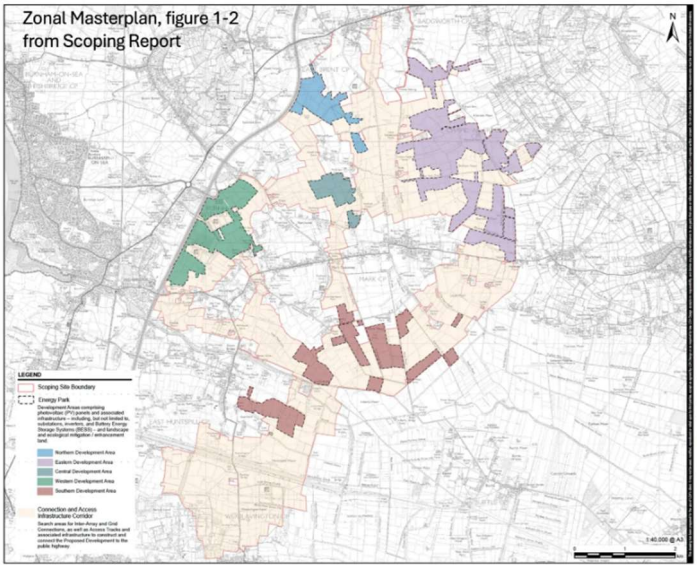

The new boundaries have been confirmed for council wards in North Somerset. The Local Government Boundary published its final report on 29th September at https://www.lgbce.org.uk/all-reviews/north-somerset

Our NEW ward of Hutton & Locking will now include the parishes of Bleadon, Hutton, Locking and **Loxton; and the newly proposed West parish ward of Banwell Parish** https://www.lgbce.org.uk/sites/default/files/2026-09/fr_-_summary_-_north_somerset.pdf

Subject to parliamentary approval our new ward will have three ward councillors, instead of the current two. Any new arrangements will apply to elections from 6th May 2027, which may include 16 & 17 year olds, if passed through the House of Lords https://bills.parliament.uk/bills/4080

Somerset Energy Park EIA Scoping, Consultation and Regulation 11 Notification

https://www.somersetenergypark.co.uk/

Bleadon Parish Council is considered by the Planning Inspectorate to be a consultation body regarding this large, nationally significant infrastructure project. The applicant's draft Scoping Opinion is available at https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN0110039/documents

As seen on the map above, the proposed scheme covers five separate development areas on the Somerset Levels and Moors on the East Side of the M5, primarily in the parish areas of Burnham Without, East Brent, Badgworth, Chapel Allerton, Mark, East Huntspill and Woolavington.

On Monday 9th November BPC councillors agreed to respond to the consultation and to offer support to the villages in Somerset. On Monday 16th November I attended Lympsham Parish Council to offer our support, and it has subsequently submitted its response. Bleadon Parish Council has also submitted its response, which is available at https://www.bleadonparishcouncil.co.uk/content/large/documents/bleadon_parish_council_response_to_somerset_enegry_project_(1).pdf

Cllr Jo Gower-Crane (lead for Public Consultations / Engagement)

Budget for 2027/28

Without wishing to put a damper on any seasonal cheer, this is also the time of the year when we start to look at setting the budget for the next financial year (1st April 2027). This is because North Somerset Council needs information from individual Town and Parish Councils in January to enable it to set overall Council Tax levels.

Local Government Finance isn't the most exciting topic in the world, but there are some important points we would like to share and to get your views on.

The day-to-day running costs of the Parish Council are funded through the Parish Precept, which is a small part of the Council Tax bill you receive from North Somerset Council. In the current financial year (2025/26), this is £116.20 (per year) for the average Band D property (Band D is used nationally for comparative purposes) and is the same as it was for the 2024/25 financial year. Whereas the precept for Bleadon used to be one of the highest within the North Somerset area, it is now considerably below the average - which currently stands at £132.58.

As well as maintaining a relatively low precept, we've also been able to invest in improvements to some of the local infrastructure and services over the last couple of years. This has included:

- Refurbishment of the toilets
- Upgrades to the play area and the installation of new gym equipment (supported by free exercise classes)
- Enhancements to planting areas
- Restoration of the Market Cross and works to the Parish Pumps – both of which are Grade 2 Listed monuments
- Replacement noticeboards, benches and bins
- Footway improvements

We have also been able to financially support (both directly and indirectly) some of the other community facilities within the Parish.

Part of the reason we've been able to invest in these areas is that we have been successful in obtaining a number of grants and pressing for changes to

legal agreements to see more money invested in the Parish. As a consequence, the amount we will spend this financial year will be higher than the precept but this additional amount is covered by these other funding sources.

Turning to next financial year, we know that some of our costs will increase. This is because a number of service contracts that we currently have in place will have reached the three-year point. This is significant as it provides an opportunity for the contracts to be extended for a further two years. In the event that the contracts are extended, then the Council needs to be fair in its approach to its contractors (who are small, local contractors) when agreeing terms and recognize the impact of inflation over the last 3 years. In the event that the contracts are not extended, then the Council would need to seek competitive quotes and the outcome of that exercise would likely see an increase in costs.

In addition to some of our maintenance pressures, two questions which have been raised over recent months is what – if anything – the Parish Council might be able to do in terms of highways related issues and in securing more open space/protecting land from over development. There are some legal complexities around these sorts of issues but there are some powers the Council could exercise. For example, the Parish Council is not the 'Highways Authority' so it cannot decide what can or cannot happen in relation to the highways (that would be for North Somerset Council to determine). However, it could, for instance purchase electronic speed indicator devices (with North Somerset Council's approval) as part of a joint approach with North Somerset Council and the Police to managing speed or it could fund traffic feasibility studies to support its case for major highways investment proposals. Similarly, the Parish Council can acquire land provided it meets one of a number of specific purposes, which might include the provision of public open space or the creation of allotments or small tenancies for tenant farmers.

What would need to be recognized is that there is a cost in exercising these powers and whilst there are mechanisms by which the Council can apply for loans to fund larger acquisitions, it would need to be able to prove that it has the means to meet the costs of any loans.

Given the above, the Council would very much welcome your views

regarding a potential increase in the Parish Precept for the next financial year. Just to give you a practical example of what an increase might generate over a given period, there are circa 600 properties within the Parish, so over a 5-year period for the average Band D property:

- A £5 annual increase (10p per week)
    - would generate approximately £15,000
- A £10 annual increase (20p per week)
    - would generate approximately £30,000
- A £15 annual increase (30p per week)
    - would generate approximately £45,000

We would want to stress that no decisions have been made and all of the above examples would still see the Bleadon precept being below the average precept for all Town and Parish Councils within North Somerset.

Craig Bolt (Parish Clerk & RFO)

Community Infrastructure Levy (CIL)

CIL is a one-time payment which North Somerset collects from certain types of new residential development upon completion. Under the CIL regulations, a proportion of the monies (15%) is then passported to the relevant Town/Parish Council. There are some fairly strict rules as to how this money can be used. For instance, it can't be used to meet the day-to-day running costs of the Parish Council and – as the name suggests – is really intended for use on 'one off' capital works/acquisitions that have a wider community benefit. Previous CIL allocations have supported works around the Coronation Halls (including the lit path at the front of the halls) and the improvements to the public toilets.

The latest allocation of CIL is just over £10,000 and we would welcome your suggestions as to how this funding might be used to best effect. The Council will, of course, take the funding into consideration as part of its budget setting debate but, as previously mentioned, it cannot be used to support the day-to-day running costs of the Council and can be used to support projects/proposed works where there is a clear benefit to the wider community.

Andy Scarisbrick – Chairman

Parish Clock

As you might be aware, there have been a number of glitches over the last couple of years with the electronic component of the Parish Clock in the church tower. We know - from the many comments we receive on the occasions that the clock has not been working – that, despite the digital age we live in, many parishioners feel passionately about the clock and feel that it is a quintessential part of village/rural life.

There are essentially 3 parts to the clock. There is the dial – which is the bit which was regilded a year or so back and is the bit which everyone sees. The dial connects to the mechanical mechanism, which is the bit of the clock which is 125 years old and shown in the image below.

The mechanical mechanism of the clock is regulated by an electronic component which resets the weights which run the mechanical mechanism. It's this electronic component – which is known as an auto-winder - and the motors it drives where we've experienced some problems – not the mechanical mechanism or the dial.

The autowinder is now 30 years old and the original suppliers have advised that there are no longer replacement parts available so if/when it goes

wrong again, it will not be able to be fixed. As a consequence, the Council has sought tenders from specialist companies to provide a new autowinder. Unfortunately, autowinders are not a cheap solution and the cost of a replacement system will be in the region of £10,000. In addition, although the clock has a routine annual service it isn't clear when the mechanical mechanism of the clock was last stripped down and all of the moving parts checked for wear/regreased etc.

Given that the clock mechanism comprises of metal continuously moving against metal it makes sense to give the mechanical mechanism a thorough inspection as part of the fitting of a new autowinder. This will, however, add to the overall cost of the works.

The Council is in a position where it can fund the replacement autowinder because all of the major works which have taken place over the Summer – the investment in the play areas and the toilets – were funded by way of external grants/income.
